This information contained within is not to be construed as an offer to sell or a solicitation or an offer to buy commodity futures or options. Futures trading involves the substantial risk of loss and is not suitable for all investors.

Daily bulletins appear below, the first issued, at the bottom. This PDF file name includes the date of the first issue in the format yy/mm/dd, a format that sorts file storage in chronological order. As this market is updated daily, a new chart is added to the top. This file is replaced each 2-3 weeks, or as necessary owing to market changes and contract rolling. The commentary box is only changed when market conditions warrant, which may not be each day. Prior notice is given of any impending breaks in daily delivery, which are kept to a minimum.

Below the Hi-TechCharts is our EOC chart, a daily chart identifying the bull to bear, and bear to bull cycles, these being the complete cycle. An overview of our EOC cycle is included in our Tutorial, (email us for a copy markethotspots@gmx.com) but for Users to get the best results by marrying EOC cycles to elliptical cycles in Hi-TechCharts, we recommend emailing us for a copy of George Bayer's 'The Egg of Columbus' from which the EOC analysis is derived.

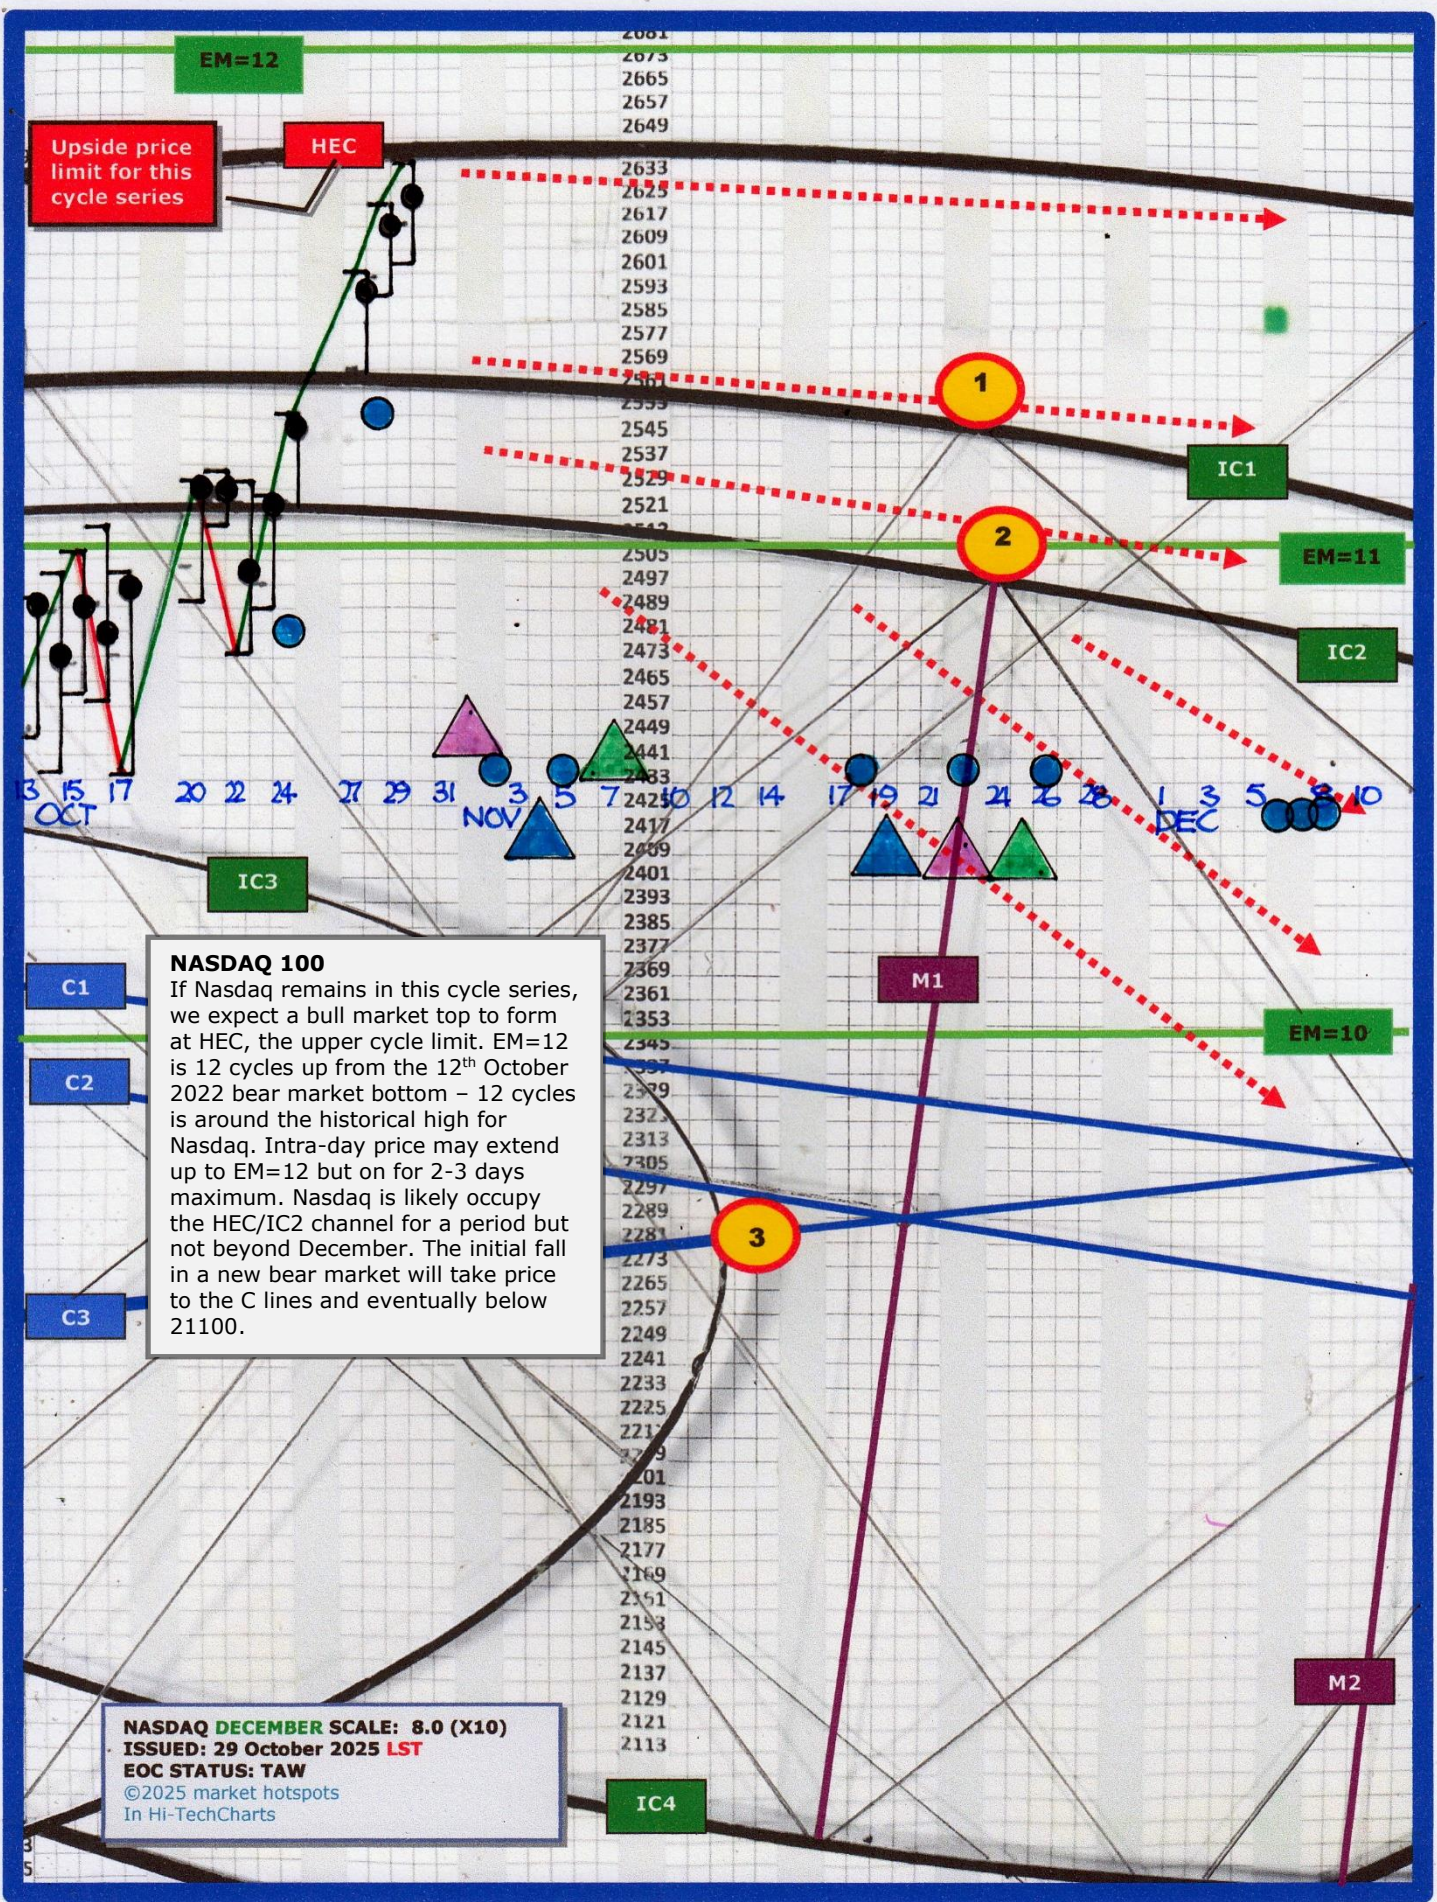

NASDAQ 100

If Nasdaq remains in this cycle series, we expect a bull market top to form at HEC, the upper cycle limit. EM=12 is 12 cycles up from the 12th October 2022 bear market bottom - 12 cycles is around the historical high for Nasdaq. Intra-day price may extend up to EM=12 but on for 2-3 days maximum. Nasdaq is likely occupy the HEC/IC2 channel for a period but not beyond December. The initial fall in a new bear market will take price to the C lines and eventually below 21100.

NASDAQ EOC CHART

Hi-Tech Charts EOC Charts

- Small red & blue circles: EM time cycles forcing tops & bottoms
- Black lines joining tops & bottoms: EM price cycles in number of basic cycle units, e.g., (5) on a black line indicates five EM cycles.
- Blue symbols: Stages of the EM bull-bear-bull cycle patterns. For more information, contact us.

For information on how to interpret the EOC charts email us at markethotspots@gmx.com and receive our EOC tutorial.
